# GOALS - PARKLET

## ENCOURAGE NON-MOTORIZED TRANSPORTATION

Parklets encourage walking by providing pedestrian amenities like public seating, landscaping, and public art. Parklets often provide bicycle parking which makes it easier for people to make the choice to bicycle.

## ENCOURAGE PEDESTRIAN SAFETY & ACTIVITY

Parklets provide buffer areas between traffic lanes and the sidewalk. They also provide outdoor gathering place in areas where City parks are few or far away.

## FOSTER NEIGHBORHOOD INTERACTION

Parklets invite pedestrians to sit and gather with friends and neighbors. In many cases, neighbors have participated in the design, financing, construction, and stewardship of parklets.

## SUPPORT LOCAL BUSINESSES

Parklets enhance the pedestrian environment which can help make the street feel more safe and comfortable for people shopping, running errands, and accessing services in their in their own neighborhoods.

## REIMAGINE THE POTENTIAL OF CITY STREETS

Complete streets balance the needs of people walking, riding bicycles, taking transit and travelling by car. Parklets are relatively a low-cost, easily implementable approach to achieving better balance for all users of the street.
